EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya (R.G.P.V) — Indore, Madhya Pradesh
Master of Computer Applications — *Aug. 2023 – May 2025*

Devi Ahilya Vishwavidyalaya — Khargone, Madhya Pradesh
Bachelor of Arts — *June. 2020 – May 2022*

PROJECTS

QuizMaster | *HTML, CSS, and vanilla JavaScript.*
- Overview: A web-based quiz game designed to test users' knowledge of JavaScript with timed questions.
- User Authentication: Requires a valid username and password to start the quiz.
- Timed Questions: Each question must be answered within 60 seconds.
- Key Features: Score tracking, immediate feedback, and a responsive design for various devices.

.Sneakers | *HTML, CSS, and vanilla JavaScript, GSAP, Swiper, jQuery.*
- Overview: An eCommerce website catering to sneaker enthusiasts, offering a wide variety of sneakers.
- Utilized Swiper.js to create responsive, touch-enabled sliders and carousels with customizable features and smooth animations.
- Beautiful user interface design to enhance the shopping experience.
- Target Audience: Anyone interested in sneakers, from enthusiasts to casual shoppers.

Currency Converter | *HTML, CSS, and vanilla JavaScript.*
- Overview: A web-based application that converts one currency into another using real-time exchange rates.
- Real-time currency conversion using exchange rates fetched from an API.
- User-friendly interface for easy input and conversion.
- Target Audience: Travelers, investors, and global business professionals.

Weather Watcher | *HTML, CSS, and vanilla JavaScript.*
- Overview: A weather app that displays current weather conditions for any entered city or town.
- Fetches real-time weather data from an API.
- Provides updates on temperature, humidity, and wind speed.
- Target Audience: Travelers, locals, and anyone interested in current weather conditions.

Radison | *HTML, CSS, and vanilla JavaScript, GSAP, Swiper, jQuery.*
- A room booking website for a hotel chain offering a variety of rooms to suit different customer budgets.
- Engaging animations using GSAP (GreenSock Animation Platform).
- Interactive sliders and carousels powered by Swiper.
- Target Audience: Suitable for any customer looking to book a hotel room.

QR Code Generator | *HTML, CSS, and vanilla JavaScript.*
- Overview: An application that transforms text and URLs into scannable QR codes.
- Utilizes an API to generate QR codes.
- Allows users to download and share the generated QR codes.
- Target Audience: Businesses, educators, event organizers, and individuals needing to create and share QR codes efficiently.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS,
Frameworks: Next.js, Tailwind CSS
Developer Tools: Git, VS Code, Visual Studio, Github
Libraries: React, GreenSock Animation Platform(GSAP)
